

Release Notes

Product QVHD

VERSION: 1.4

PART # / CSUM:

COMPATIBILITY:

NEW FEATURES:

CHANGES: The following changes are included in this release.

BUG FIXES: The following bug fixes are included in this release.

On some systems, output disappears if video DB is plugged in. I debugged it to a wrong reset condition in the PE and this gets worse if there is additional load on the DSP bus (Xpnt on the video DB) . This makes the syncs go away and hence the output.

ANOMALIES: The following discrepancies are known in this release
