

Release Notes

Product MW2000

VERSION: 1.06

PART # / CSUM:

COMPATIBILITY: Requires hardware version 1.20 or later

NEW FEATURES: N/A

CHANGES: **The following changes are included in this release.**

N/A

BUG FIXES: **The following bug fixes are included in this release.**

Some units intermittently fail to show video windows on power up. Typically performing an additional power down, power up cycle restores all windows.

ANOMALIES: **The following discrepancies are known in this release**

WCP provides some sharpness settings that are invalid. This does not prohibit selection of valid values and does not cause unexpected behavior.

During loading of a background image from WCP, the list of images may disappear. Click on the browser refresh button to restore the list.

During loading of a background image from WCP, the following message may appear "Cannot establish communication with the unit". Make sure that the network cable is connected and restart WCP. If the message appears, ignore the message and click OK.
