

Release Notes

Product MW4200 / MW4500

VERSION: 3.2.6.0

PART # / CSUM:

COMPATIBILITY: No known issues with backward compatibility.

NEW FEATURES: N/A

CHANGES: **The following changes are included in this release.**

N/A

BUG FIXES: **The following bug fixes are included in this release.**

Some versions of java prevented WCP (MediaWall GUI) from automatically closing following a system change such as changing the IP address. If this occurs a warning message now appears requesting the user to close WCP manually.

Resolved an issue with some versions of Java that prevented FW upgrade to be performed from the WCP interface. Includes an update to Java 1.07 (update 25) or later.

Resolved a Java issue that prevented WCP operating with MAC computers.

ANOMALIES: **The following discrepancies are known in this release**

Changes to window priorities are not refreshed in the WCP virtual window. Any action that causes the WCP to request new status from the system such as loading a preset with groups will restore correct status. Changes to windows that are not a part of a group are correctly updated in the WCP virtual window.

RELEASE DATE **12/30/2013**
